

The Colorado Space Business Roundtable 2020 Summer Internship

Step into the future.

It's Not Rocket Science!

But wait, it is! If you've ever gazed up to the stars and wondered what's out there or perhaps even had dreams of going yourself, now is your chance to start turning those dreams into reality. If you are a high school or college student living in Colorado, you are eligible to apply for the 2020 CSBR Internship Program where you will get a chance to gain exposure and obtain relevant work experience with various aerospace companies in Colorado.

During the internship you will have an opportunity to network with leading aerospace professionals, drive rovers, launch water rockets, learn about the various engineering disciplines and what it takes to be successful in the industry, and meet a number of people working on some amazing projects in aerospace!

Application Process

The next CSBR Internship Program will run June 22 - July 3, 2020.

Students will be requested to provide a brief biography of their background and career aspirations.

Selection will be based on interest and availability.

Eligibility Requirements:

- Colorado Resident
- U.S. Citizen
- High School or College student as of Spring 2020
- Interested in Science, Technology, Engineering, or Mathematics-Related Careers

Interested in Aerospace?

The Colorado Space Business Roundtable (CSBR) is hosting a 2020 Summer Internship Program for high school and college students interested in pursuing careers in the aerospace industry. All students pursuing STEM- (Science, Technology, Engineering, and Mathematics) related disciplines are encouraged to apply.

The 2020 CSBR Internship Program will run for two weeks during the summer which gives students ample time to experience what it's like to work in various facets of the aerospace industry. Students will spend time at various CSBR partner facilities where they will have a chance to meet the best and the brightest in the aerospace industry, participate in hands-on activities, and get an exclusive behind-the-scenes look at what each company does and some of the exciting projects they are working on.

Highlights from the CSBR Summer Internship Program

2019 Participating Organizations:

- 100 Year Starship
- Ball Aerospace
- Boeing/Jeppesen
- Catalyst Campus
- Colorado Department of Transportation
- Colorado Space Coalition
- Elected Officials
- Jefferson County EDC
- Lockheed Martin Space
- MSU Denver
- National Reconnaissance Office
- Red Canyon Software & Engineering
- SEAKR Engineering
- Sherman and Howard
- Sierra Nevada Corporation
- Space Foundation
- Teledyne Brown Engineering
- The 3D Printing Store
- United Launch Alliance
- University of Colorado – Boulder
- Webster University
- Willis Towers Watson
